Deepa mentored me and during this time I found Deepa to be an excellent coach, Her ability to listen, absorb and then give insights about queries has surprised me. She had well-structured approach and payed focused attention on all areas of a coaching conversation and her feedback was well articulated and to the point that benefits the coaches to focus on the right areas to improve as a coach. Her statement "Coach the person and not the problem" is a simple yet powerful statement to have as a baseline for any coaches.
